GAME SETUP

For Standard 2-Player Game

1. Choose Your Deck

Each player selects one of these pre-built decks OR builds a custom 40-card deck:

Starter Decks:

- 🦁 **Savannah Hunters** (Predator-focused)
- 🦅 **Sky Dominators** (Flying tricksters)
- 🦟 **Venomous Strikers** (Poison attacks)
- 🏰 **Fortress Defenders** (Counter-heavy)

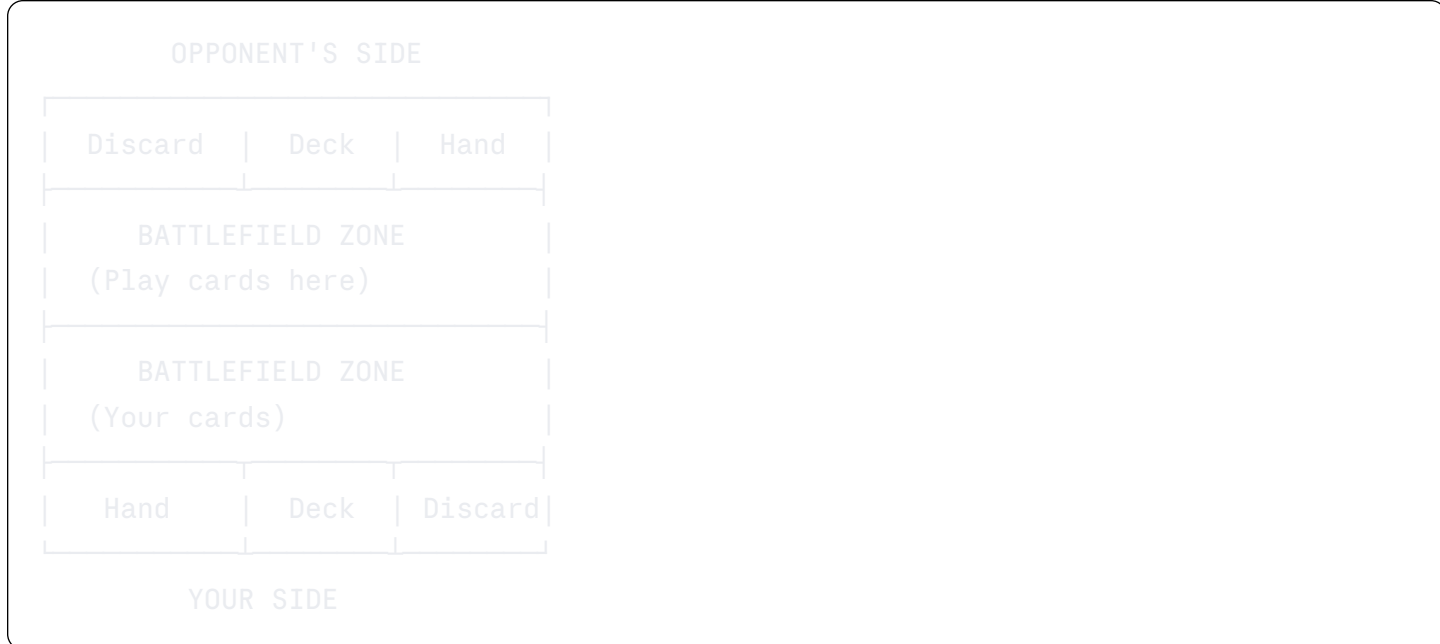

2. Shuffle & Draw

1. Shuffle your 40-card deck thoroughly
2. Place deck face-down in your **Deck Zone**
3. Draw **5 cards** for your starting hand
4. Decide who goes first (roll die, flip coin, etc.)

3. Set Health

- Set both players' health trackers to **30**
- Place effect tokens within reach
- Keep the turn tracker visible

4. Play Area Layout

HOW TO PLAY

Turn Structure

Each turn has **4 phases**. Complete them in order:

PHASE 1: DRAW

- Draw **1 card** from your deck
- If your deck is empty, shuffle your discard pile to form a new deck
- **Maximum hand size: 7 cards** (discard extras immediately)

PHASE 2: PLAY

- Play **up to 3 cards** from your hand to your battlefield
- Each card is played face-up
- Activate any "When Played" abilities immediately
- You may play fewer than 3 (or none)

Playing Cards:

1. Choose a card from your hand
2. Place it face-up in your battlefield zone
3. Announce its ability (if any)
4. Resolve the ability

PHASE 3: ATTACK

- Attack your opponent with cards on your battlefield
- You may attack with **any number** of your cards
- Choose which opponent cards defend (if any)
- Resolve combat (see Combat Rules)

PHASE 4: END

- Apply end-of-turn effects
 - Reduce effect token durations by 1
 - Remove tokens that reach 0 duration
 - Your turn ends, opponent's turn begins
-

Sample First Turn

Player 1's Turn:

1. **DRAW:** Draws "Leopard" (now has 6 cards)
2. **PLAY:** Plays "Wolf" (⚡ 5) and "Rabbit" (⚡ 2, Trickster)
 - Rabbit's ability: "Look at opponent's hand"
 - Sees opponent has Lion, Eagle, Cobra
3. **ATTACK:** Chooses not to attack (building up)
4. **END:** No effects active, turn passes

Player 2's Turn:

1. **DRAW:** Draws "Rhino"
 2. **PLAY:** Plays "Lion" (⚡ 8, Predator) defensively
 3. **ATTACK:** Attacks with Lion (8 damage)
 - Player 1 blocks with Wolf (5 strength)
 - Lion wins ($8 > 5$), deals 3 damage
 - Player 1: $30 \rightarrow 27$ health
 - Wolf goes to discard
 4. **END:** Turn passes
-

- Examples: Antelope, Deer, Elk, Moose

NORMAL ANIMALS (Blue Border)

Specialty: Balanced stats, reliable

- No special abilities
- Moderate strength (3-5)
- Good for building up numbers
- Can upgrade to better animals

COMBAT RULES

Basic Combat

Step 1: Declare Attackers

Active player chooses which cards attack:

- "I attack with Lion and Wolf"
- Can attack with 0, 1, or all cards

Step 2: Declare Blockers

Defending player assigns blockers:

- "I block Lion with my Rhino"
- "Wolf is unblocked"
- Can block multiple attackers with one card
- Can leave attackers unblocked

Step 3: Resolve Combat

Calculate damage for each battle:

Formula:

Net Damage = Attacker Strength - Blocker Strength

Examples:

Example 1: Simple Block

- Lion (8) attacks
- Rhino (7) blocks
- $8 - 7 = 1$ damage to defender
- Both cards survive

Example 2: Unblocked Attack

- Wolf (5) attacks
- No blocker
- Defender takes 5 damage directly
- Wolf survives

Example 3: Blocker Wins

- Jaguar (6) attacks
- Elephant (9) blocks
- $6 - 9 = -3$ (Elephant wins)
- Jaguar destroyed, Elephant survives
- No damage to defender

Step 4: Apply Damage

- Reduce defender's health
 - Destroy cards with lethal damage
 - Move destroyed cards to discard
-

Advanced Combat Scenarios

Multiple Blockers

One blocker per attacker:

Attacker: Lion (8), Wolf (5), Fox (4)

Defender assigns:

- Elephant (9) blocks Lion
- Rhino (7) blocks Wolf
- Bear (6) blocks Fox

Resolution:

- Lion vs Elephant: Elephant wins (Lion destroyed)
- Wolf vs Rhino: Rhino wins (Wolf destroyed)
- Fox vs Bear: Bear wins (Fox destroyed)
- Defender takes 0 damage

Gang Blocking

Multiple cards block one attacker:

Attacker: Dragon (10)
Defender: Wolf (5) + Fox (4) = 9 total

Resolution:

- $10 - 9 = 1$ damage to defender
- Dragon survives
- Wolf and Fox both destroyed

Combat Abilities

Before Combat

- **Ambush:** "My Fox has Ambush, double damage!"
- **Sword of Horus:** "All my attacks get +3!"

During Combat

- **Pounce:** "Lion deals +2, total 10 damage"
- **Toxic Blood:** "Your attacker takes 2 damage back"

After Combat

- **Poisonous Bite:** "You're poisoned for 2 turns"
- **Slash:** "You also discard 1 card"

Victory:

- Win 3 rounds (best of 5)
- Opponent times out 3x

Best For: Quick games, casual play

STRATEGY TIPS

Beginner Tips

1. Curve Your Deck

Don't play all your best cards turn 1:

Turns 1-3: Play Common/Rare (build up)
Turns 4-6: Play Epic cards
Turns 7+: Play Legendary finishers

2. Save Counters

Don't waste defensive cards early:

- Keep Shield of Savannah for big attacks
- Save Toxic Blood for Legendary predators
- Use School and Herd when you have 3+ cards

3. Card Advantage

More cards = more options:

- Tricksters steal cards (gain advantage)
- Don't overcommit to battlefield
- Keep 3-4 cards in hand

4. Know Your Opponent

Track what they've played:

- If they played Lion, watch for more Pounce
- If they have Eagles, expect stealing
- Count their Legendary cards used

Advanced Strategies

The Bait

1. Play weak card to bait opponent's attack
2. Counter with stronger card + Shield
3. Opponent wastes strong card

Example:

You: Play Rabbit (⚡ 2) - looks weak
Opponent: Attacks with Lion (⚡ 8)
You: Block with Elephant (⚡ 9) + Shield
Result: Lion destroyed, you take 0 damage

The Poison Stack

1. Apply poison from multiple sources
2. Opponent takes massive damage per turn
3. Focus on defense while poison works

Example:

Turn 1: Cobra bites (Poison 2)
Turn 3: Mamba bites (Poison 2)
Turn 5: Adder bites (Poison 2)
Result: 6 damage per turn!

The Trickster Combo

1. Steal opponent's best card (Monkey)
2. Force them to attack (Owl)
3. Ambush with Fox (2x damage)

The Herd Defense

1. Play 5+ Counter animals
2. All get +1 from School and Herd
3. Massive defensive wall

Deck Building Tips

Balanced Deck (40 cards)

15 Predators (offensive)

10 Counters (defensive)

10 Tricksters (utility)

5 Normals (filler)

Aggressive Deck

25 Predators (all-in offense)

10 Tricksters (support)

5 Counters (minimal defense)

Defensive Deck

20 Counters (wall strategy)

15 Predators (counter-attack)

5 Tricksters (utility)

Rarity Distribution

20 Common (backbone)

12 Rare (solid plays)

6 Epic (power plays)

2 Legendary (finishers)
